

CONNECTEDHD 8"

FactoryMatch™ Replacement Headrest DVD System

INVISION continues to focus on providing greater connectivity for an enhanced rear seat entertainment experience. Our premium headrest and overhead products come with built-in HDMI/MHL inputs, delivering unlimited options in high-definition content delivery without having to sacrifice traditional DVD viewing. Of course, these new products have been developed to meet the exceptional engineering and reliability standards that INVISION has become synonymous with over the years – from leading electronics to stylish design to their factory look & feel.

The new ConnectedHD 8" Headrest System is our flagship product, an exclusive innovation. To begin with, no other system available today comes with our generous 8" screen. And to enhance the gaming experience even further, the ConnectedHD 8" offers an optional "Game Pack" – plug-in game module pre-loaded with (54), 32-bit video games and 2 wireless controllers. Each child has the flexibility to watch a movie and/or play a game, remaining fully engaged for the journey.
